

PowerPrep

The Leader in Test Preparation

Who We Are

PowerPrep is widely recognized as the most successful test preparation program on Long Island. On average, our students earn SAT scores that are nearly 200 points higher than their PSAT scores; many go up 250 or 300 points or more. By way of comparison, the College Board reports that 38% of all juniors earn SAT scores that are lower than their PSAT scores, and for those who improve, the average increase is less than 40 points. Of course, our students' success is a direct result of PowerPrep's unique curriculum and outstanding instruction. The entire PowerPrep program is under the personal supervision of its founder and president, Dr. Ira Wolf. He has personally trained all of PowerPrep's instructors, who on average have more than 20 years of experience in SAT preparation.

Dr. Ira Wolf

Dr. Wolf is an expert in test preparation who lectures extensively about the SAT and other college entrance exams. Dr. Wolf, who has helped students reach their maximum SAT potential for over 35 years, is the author of several books, including the best selling test prep book of all time: Barron's *How to Prepare for the SAT*. Dr. Wolf's SAT book is the official text in SAT prep courses around the country and is used each year by hundreds of thousands of students. Through private tutoring and his PowerPrep courses, Dr. Wolf has taught thousands of students on Long Island the secrets of earning top SAT scores.

"No courses are more successful in helping students raise their scores than PowerPrep's"
